MANUFACTURING FOR GLOBAL MARKETS

COMPANY OVERVIEW

JFB & DNG – UNITED FOR EXCELLENCE

JFB and DNG have joined forces as one trusted partner, combining innovation, manufacturing excellence, and a customer-first approach to deliver comprehensive solutions across multiple industries.

15+
YEARS OF
MANUFACTURING
EXCELLENCE

OUR JOURNEY

With over 15 years of manufacturing expertise in workwear, PPE, and medical consumables, JFB and DNG have built a strong reputation for quality, reliability, and innovation.

EXPANDED PORTFOLIO

To better serve our global partners, we have established a new state-of-the-art corporate manufacturing facility in Egypt, dedicated to corporate wear, active workwear, and general textile.

ONE UNIQUE SOLUTION

Our integrated capabilities allow us to offer a unique one-stop solution across multiple industries — streamlining your supply chain with uncompromising quality and consistency.

WHAT SETS US APART

High production capacity, cost effectiveness, and exceptional custom solutions tailored to your specific needs — delivered with efficiency and excellence.

OUR CORE STRENGTHS

HIGH CAPACITY

Advanced facilities and skilled workforce to handle large-scale demands.

COST EFFECTIVENESS

Optimized processes and sourcing to deliver best value.

CUSTOM SOLUTIONS

Tailored designs, private label & OEM/ODM services.

QUALITY ASSURANCE

Strict quality control at every stage of production.

GLOBAL REACH

Reliable export and logistics network serving worldwide markets.

MANUFACTURING FOR GLOBAL MARKETS

WHY GLOBAL PARTNERS CHOOSE JFB & DNG

We combine experience, innovation, and reliability to deliver superior workwear and medical solutions that help our global partners grow with confidence.

15+ YEARS MANUFACTURING EXPERIENCE

Over 15 years of industry expertise and a proven track record of delivering high-quality products worldwide.

OEM & ODM SERVICES

From concept to production, we provide complete OEM & ODM solutions tailored to your brand.

CE CERTIFIED PRODUCTS

Our products meet international quality and safety standards with CE certification.

EXPORT TO MULTIPLE COUNTRIES

Trusted by partners in Europe, the Middle East, Africa, and beyond. We ship worldwide.

FAST PRODUCTION LEAD TIMES

Efficient processes and advanced production facilities ensure on-time delivery, every time.

PRIVATE LABEL SOLUTIONS

Custom labels, packaging, and branding options to build your brand with confidence.

LOW MOQ OPTIONS

Flexible Minimum Order Quantities designed to support businesses of all sizes.

DEDICATED QUALITY CONTROL

Strict quality control at every stage ensures consistent excellence in every product we deliver.

STRONG PARTNERSHIPS. SUPERIOR QUALITY. SHARED SUCCESS.

We are committed to building long-term relationships based on trust, transparency, and outstanding performance.

DISPOSABLE SURGICAL DRAPES

Engineered for maximum protection, infection control and patient safety across a wide range of surgical specialties.

High-performance, fluid-resistant drapes designed to maintain a sterile field and optimize surgical outcomes.

TYPES OF DISPOSABLE SURGICAL DRAPES

 Angiography Drapes	 Eye Drapes	 Cardiovascular Drapes	 Cystoscopy Drapes	 EENT Drapes (Ear, Eye, Nose, Throat)	 Head & Neck Drapes
 Flat Drapes	 Orthopedic Drapes	 General Surgery Drapes	 Peri-Gyn Drapes	 Pediatric Drapes Scaled-down versions of general or specialty drapes to suit pediatric patients.	 Equipment Drapes
		 Obstetric Drapes			

ADVANCED FEATURES FOR SUPERIOR PERFORMANCE

 Impervious SMS Material Spunbond-Meltblown-Spunbond non-woven material provides a strong, fluid-resistant barrier. There is also a variation of SMMMMS (five layers of bonded non-woven materials).	 Reinforcement Zones Added layers in high-stress or high-fluid areas to prevent strikethrough.	 Absorbent Pads Help manage surgical fluids often near fenestration areas (surgical site).	 Instrument Pads Padded areas for placement of instruments close to the surgical site, prevents slippage and maintains the sterile field.	 Clear Visibility Screens Allow visualization of instruments or the actual patient (pressure points, circulation) beneath the drape.	 Fenestrations & Apertures Pre-cut openings tailored for surgical site exposure.
 Adhesive Areas Help secure the drape in place and maintain a sterile field.	 Incise Film Areas Adhesive films over the surgical site for barrier protection.	 Iodine (Anti-infection Treatments) Areas Antimicrobial drape surfaces for added infection prevention.	 Hook-and-Loop Tube Holders & Equipment Line Holders Securely manage surgical lines, tubes, or equipment cables.	 Fluid Collection Pouches & Instrument Pouches Collect fluids or hold sterile instruments during procedures.	

MATERIAL OPTIONS WE USE

 SMS Nonwoven Fabric Standard fluid protection & strength	 SMNMS Nonwoven Enhanced barrier & strength	 Reinforced High-stress zones for critical areas	 Absorbent Pads For fluid management near surgical site	 Anti-infection Iodine/Antimicrobial surface treatments	 Latex-Free Safe for patients & staff

OUR COMMITMENT. YOUR CONFIDENCE.

“ We don't just make workwear,
we help people do their best work, safely and with pride. ”

BUILT TO PROTECT

High-quality materials that keep people safe, comfortable, and confident.

MADE FOR PEOPLE

Thoughtful designs that enhance performance and well-being.

MADE TO LAST

Durable solutions that deliver long-term value and reliability.

MADE RESPONSIBLY

Sustainable practices for people, communities, and the planet.

Great workwear doesn't just
PROTECT PEOPLE,
it empowers them to achieve more.

DRIVEN BY INNOVATION

We continuously evolve to provide smarter and better solutions.

ROOTED IN TRUST

Strong relationships built on honesty, respect, and dependability.

FOCUSED ON SERVICE

Agile support and care that exceed expectations, every step of the way.

GROWING TOGETHER

We grow with our partners, their success is our success.

THE VALUES WE LIVE BY

INTEGRITY

We do what's right, even when no one is watching.

EXCELLENCE

We pursue the highest standards in everything we do.

TEAMWORK

We collaborate, support, and achieve together.

RESPECT

We value every person and celebrate our differences.

RESPONSIBILITY

We take ownership and care for a better future.

Together, we create more than workwear.
We create Confidence. We create Impact. We create a Better Tomorrow.

EU & INTERNATIONAL REGULATORY COMPLIANCE

CERTIFICATIONS & COMPLIANCES

Trusted by European medical distributors, hospitals, government procurement agencies, PPE importers, and corporate buyers for fully documented regulatory compliance and quality assurance.

Our products are manufactured under internationally recognized quality management systems and supported by comprehensive technical documentation, certification files, and conformity assessments that facilitate seamless market access across Europe, the Middle East, Africa, and international markets.

CE MARKING

Products comply with applicable European conformity requirements and are manufactured according to recognized quality and safety standards, supporting legal placement within European markets.

PPE REGULATION (EU) 2016/425

Protective clothing and PPE products are manufactured in accordance with Regulation (EU) 2016/425, ensuring conformity assessment, user safety, risk protection, and CE certification requirements for European distribution.

KEY REGULATION

EN ISO STANDARDS

Products are manufactured according to relevant EN and ISO standards applicable to workwear, medical apparel, disposable protective clothing, and industrial safety garments.

ISO 9001:2015

Certified Quality Management System ensuring consistent production processes, continuous improvement, customer satisfaction, and product reliability.

EN ISO 13485

Medical Device Quality Management System supporting healthcare textiles, surgical apparel, medical consumables, and hospital procurement requirements.

TECHNICAL DOCUMENTATION & TENDER READY

Complete technical files, declarations of conformity, compliance reports, product specifications, and certification documents available to support public tenders, hospital procurement, and distributor approvals.

COMPLIANCE COVERAGE

QUALITY ASSURANCE

Our QA approach is built on a foundation of rigorous multi-stage testing to guarantee garment integrity and full regulatory compliance.

INCOMING INSPECTION

All raw materials and accessories are inspected for quality, specifications and compliance before production begins.

IN-PROCESS INSPECTION

Continuous monitoring at key production stages ensures consistent quality and early detection of any deviations.

FINAL INSPECTION

Every finished garment undergoes comprehensive inspection to ensure it meets our quality standards and customer requirements.

TRACEABILITY

We maintain full traceability across all production batches, ensuring accountability and fast response.

TESTING

Garments and fabrics are tested for performance, durability, safety and regulatory compliance in accredited labs.

OUR QA COMMITMENT

We follow international quality standards and best practices at every stage.

Documented procedures, checklists and records maintained for full transparency and audits.

Our trained QA team ensures consistent quality, safety and compliance.

Collaborative approach with customers to meet their specific quality requirements.

Zero-defect mindset with continuous improvement and corrective actions.

Compliance with EU regulations and standard requirements for global markets.
